**Subject:** From Hawk

Hi Jeff

I am referring to=our previous conversations about the Internet project.

=/div>

The objective for the project is to build a mechanism for =eb monitoring and response, which will include social media, news resource=, content syndication (i.e. Youtube, Flikr) and referential resources like=Wikipedia, and then crafting and keeping the right image for the subject.<=r>

Based on previous cases I think a 12 month period is advisab=e.

If you have 10 minutes today I could stop by your hou=e?

Best regards

Hawk
