Jeffrey Epstein to host Mindshift Conference

Jeffrey Epstein and Al Seckel have assembled a diverse and eclectic intimate group of exceptional thinkers and achievers to discuss various topics, among others, relating to:

Artificial Intelligence
Complexity Theory
New Trends in Theoretical Physics
Evolutionary Biology
Cognitive Neuroscience
Minimally Invasive Surgery
Encryption and Decryption
New Financial Systems and Methods
Emerging Technologies

This conference will take place in early January at on the Island of Saint Thomas and at Jeffrey Epstein's private island in the Caribbean,Little Saint James. The purpose is to bring together diverse backgrounds, expertise, and viewpoints, to try to push the frontiers of substantive topics. The Mindshift Conference is made possible by a generous grant from the Jeffrey Epstein Foundation.

Confirmed Attendees are:

Murray Gell-Mann, theoretical physicist, Nobel Laureate, Santa Fe Institute
